WHO'S NEXT?

2021 Theme

FROM DISRUPTED, TO DISRUPTOR.

Our theme this year is centered around the idea of going from **DISRUPTED** (by the pandemic and uncertainty) to **DISRUPTOR** (reinventing your life, creating positive change, mixing things up).

+ **DISRUPTED**

/dis'rəpt'ed/ **verb**

—to prevent something, especially a system, process, or event, from continuing as usual or as expected.

+ **DISRUPTOR**

/dis'rəptər/ **noun**

—a person who causes radical change in an existing industry or market by means of innovation.

**DO WE REALLY
WANT TO
GO BACK TO
“NORMAL”...OR
ARE WE READY
TO BUILD
SOMETHING
*DIFFERENT?***

What is Pensacola Designers?

We are a nonprofit organization that provides education, networking, and support for our local creative community. Our membership is comprised of professional and student designers and creatives working within the local communications, marketing, and advertising industries.

When and how was it founded?

Pensacola Designers was originally organized in 2014 as an invite-only Facebook group. Since then, the Facebook group has amassed over 500 members. In 2019, the group officially organized as a nonprofit to better provide opportunities and events to its members.

What is the purpose of the group?

Originally the group served as a community space where local designers could share their work for critique, post portfolios, ask questions of experienced designers as well as post jobs and employment opportunities within the local industry. Now, with the attainment of nonprofit status, the group seeks to:

1. Provide more formal educational opportunities for individuals connected to the communications, marketing and advertising industry;
2. To advance professional and quality development of design professionals, and;
3. To advocate for the growing design and creator community within our region.

Who do we benefit?

Through education and advocacy, our work will benefit multiple audiences:

1. **The Gulf Coast Design Community** - By advancing professional development of the design community to elevate the quality of work produced by designers, filmmakers, content creators, makers and the creative industry as a whole.
2. **The Local Communications, Marketing & Advertising Industry** - As a result of our impact on the design community, we will elevate the local communications, marketing and advertising industry's position and presence as a top-tier area for quality work and talent.
3. **The Business Community at Large** - Businesses will benefit from both the surge in top creative talent to effectively position their businesses and companies
4. **The Community at Large** - Because of our impact on attracting and retaining top talent, our community will benefit from the economic and workforce development opportunities created from our efforts.

Why did we decide to found DesignXL?

In early 2019, a dedicated group of professionals from the local creative community decided to create a conference to bring the industry's best and brightest thinkers to the Pensacola area. Our main purpose is to serve our community with theoretical and practical knowledge to advance their professional development, build new skillsets, and improve overall quality of work.

BE PART OF THE INSPIRATION.
